INSTRUCTIONS

Instructions for opening the **Ancestor Profile** Scrivener Template

1. Download the Ancestor Profile.scriv file. The file is a zipped (.zip file), so you will need to unzip it first if your computer doesn't do it automatically.
2. It is recommended that you save/make a copy.
3. Double click to open the Ancestor Profile file – it should open in Scrivener.
4. You can customize this template for your own projects.
5. To save as a Template go to File > Save As Template and then follow the instructions to name and describe your template. This works in both Windows and Mac.
6. The file has been tested Mac OS X (Version 10.9.5) and Windows 7 (if you are using newer operating systems there is a possibility the file may not work).
7. **NOTE: DOWNLOAD THIS FILE AT YOUR OWN RISK.** The file has been scanned for security threats and is virus free. You should ALWAYS scan your own files with your own anti-virus software program before opening them on your computer. By downloading this file you accept and understand that neither Lisa Alzo, Geoff Rasmussen, or Family Tree Webinars/Millennia Corporation assume any responsibility for damages, viruses, or loss of data upon download of this file.
8. If you still have trouble after following these instructions, please contact me at: lisa@lisaalzo.com and I will try to walk you through a solution.
9. This ancestor profile template may not be reproduced, shared, or distributed without the written permission of the author. Please email lisa@lisaalzo.com.
